A step-by-step approach to convert destructive confrontation into constructive conversation

## ► Difficult Discussions – managing the unavoidable...

Difficult discussions are a part of life... No matter how conversationally competent we are, we all have difficult moments when things just don't go 'right' no matter what efforts we make or conversational strategies we try.

Challenging, confronting or contentious conversations are something everyone has to learn how to handle. Often, it's the conversations we dread most that we handle the most clumsily. How do you shape up in managing those difficult conversational moments? Do you resort to blame, accusation, domination – or retreat into silence and hope it will all slide past?

Avoiding difficult discussions causes so much conflict and stress at work, it's a wonder we don't work harder on getting better at having them? Poorly handled or avoided, they detract from performance and erode relationships – trust goes, misunderstandings multiply, productivity plummets and teams turn toxic.

Sure, there's no set formulas or quick-fixes that work every-time, but there are tools that can help you conduct difficult conversations more confidently and constructively. You can do something about handling confrontation better, overcoming anxiety and managing your own responses to challenging situations more effectively... and that's what our clinic is all about.
